

PROFESSIONAL SUMMARY

A frontend developer who treats UI like craft. Detail-oriented developer specializing in crafting clean, high-performance, and pixel-perfect modular user interfaces. Dedicated to building responsive web applications with rich user experience, fluid interactions, and maintainable frontend architectures.

PROFESSIONAL JOURNEY

Frontend Developer / Independent

- Successfully delivered 20+ web applications with highly custom design systems and layout schemas.
- Translated complex designer wireframes and visual states into highly scalable, clean, component-driven production architectures using React and Vue.
- Designed flexible bento-box layouts, micro-interactions, and complex responsive modules using CSS Grid, Flexbox, and Tailwind CSS.
- Optimized frontend bundle sizes, asset workflows, and clean code paths to maximize speed and browser execution times.

FEATURED PROJECTS

James Frontend — React, Tailwind CSS

High-fidelity UI implementation showcasing precise architectural layout, performance execution, and pixel-perfect design alignment.

Flash Ratio — Vue.js, Scss

Dynamic component engine managing responsive layout proportions, state adjustments, and adaptive asset configurations.

Gear60s — Next.js, TypeScript

Highly scalable, type-safe application layer optimized for rendering speed, fluid user engagement, and SEO standards.

Felix-UI — React, Tailwind

Open-source utility-first component ecosystem structured for accelerated front-end prototype development and accessibility.

Bento-Design & The Trichy — HTML5, CSS Grid, Vanilla JS

Experimental responsive mosaic grid implementations utilizing native layout properties, custom animation bindings, and media interactions.

TOOLS CONSTELLATION

Core Frontend

HTML5, CSS3, JavaScript (ES6+), React

UI & Ecosystem

Tailwind CSS, Sass / SCSS, Framer Motion, Bootstrap

Tools & Platforms

Git, GitHub, Vite, , npm, pnpm, VS Code, Figma, Notion

Future Focus

Node.js, Fullstack

EDUCATION

B.Tech in Information Technology

I.M.S Engineering College, Ghaziabad
Graduation: 2024

B.Tech in Information Technology

CBSE Class 12
Dev Krishan Public School, Baghpa, 2020

B.Tech in Information Technology

CBSE Class 10
Dev Krishan Public School, Baghpa, 2018

CERTIFICATIONS

Meta Front-End Developer Certificate
Advanced React Development (Coursera)

METRICS & IMPACT

20+ Successful

100+ Git Commit

1Y+ Practical Development Exp
